integrity, and professionalism*

# CREATIVE SOLUTIONS AND INNOVATIONS

PHILS, INC.

## About Us

Creative Solutions and Innovations (CSI) Phils Inc. was established in 2011 with the aim of providing innovative, industry- changing, revolutionary, green building product that will help reshape the outlook of the Philippine Construction Industry in building materials. We are an authorized distributor of GRM WPC products, Dekor Stucco and Dekor Clay here in the Philippines.

## Mission

We are what our name conveys. We offer creative solutions and suggest transformation ideas to suit the aesthetic preferences of clientele in interior and exterior finishes of buildings and structures.

## Vision

To be a diversified institution that will gain widespread attention in the evolving and dynamic trends of construction finishing design materials.

**Composite Solutions by CSI**, an authorized distributor of GRM WPC products here in the Philippines. Composite Solutions is a perfect interaction between ecology and efficiency. Committed to redefine the concept of value in construction and remodeling industries by providing smart, efficient and healthy alternatives to conventional building materials. Composite Solutions have a natural timber look and alternative application for residential or commercial that brings added value to your investment. Using Composite Solutions that can protect your home building against the elements of nature with style. Simply touch of elegance which brings warmth and architectural design.

## Used Best for:

- Ceiling
- Decking
- Flooring
- Gate & Fence
- Handrail
- Louver
- Slats
- Wall Cladding

## Features and Benefits of Composite Solutions Products

Composite Solutions by CSI are usually over natural wood in many applications due to certain comparative advantages such as:

Weather & Water Resistant

Insect Resistant

Environment Friendly

Longevity

Paintable

Nail & Screw Fixing

**Dekor Clay, MCM (Modified Clay Material)** Researched, patented and invented in US but manufactured in China. Cheaper than US brand. Suitable in Ceiling, Walls and Flooring (Interior and Exterior).

Smart Stone Regenerated Series is fully upgraded from texture, color and pattern. The exquisite patterns and textures are original and rough, profound and thought provoking. It has the advantages of large size, light weight, flexible and bendable, convenient installing and low cost, and can be used interior and exterior.

## Dekor Clay Advantages

Easy to cut and install - and you can create on patterns  
(Easy Dusting, Cutter Materials, Grinder or Edger Cutting tile)

No Molds and mass

Waterproof materials

Low maintenance

Clay soil has a very high relative humidity

MCM (Modified Clay Material) absorbs and desorbs moisture

Product is eco-friendly materials

MCM is artificial but using 97% natural clay soil. Artificial because they are modified.

MCM is fire retardant because it is made of 90% clay soil and 98% of product is texture

# Weaving

Weaving patterned file for ceiling, wall and floor covering. This product is Fire-Resistant, Corrosion- Resistant & Fade-Resistant. For best results we would suggest to affix product with our recommended adhesive compound and when laid with 6mm joint the grout line can be inserted.

Product Size: 600 x 1500mm  
Thickness: 6mm

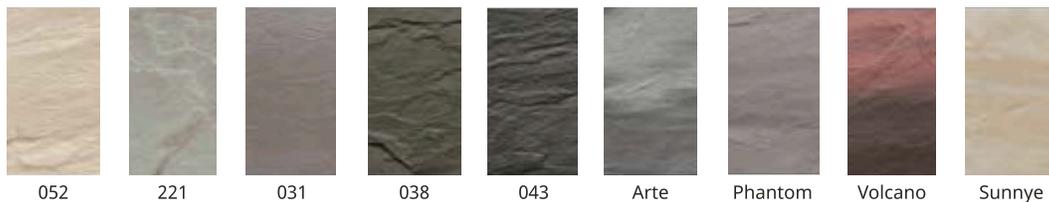

# Stone

Slate Natural surface texture in beautiful earthen shades, MCM stone finishes offer excellent durability and aesthetics to the buildings they are applied to have a unique surface pattern characterized by hardness, streaks, and random variations in texture, giving a rustic look to your spaces.

## Slate Series

Product Size: 600 x 300 / 600 x 1200mm  
Thickness: 2 - 3.5mm

# Travertine Mosaic - Modified Clay

---

Travertine Mosaic is a decorative wall panel made from modified clay materials, designed to replicate the natural texture and depth of travertine stone. Its three-dimensional mosaic pattern creates visual movement and a handcrafted stone effect. Lightweight yet durable, this panel is easy to install and suitable for both interior and exterior applications, adding warmth and character to feature walls and architectural surfaces.

Product Size: 120 cm x 300 cm

# Moonscape 043

---

Moonscape 043 is a textured wall panel inspired by the raw, uneven surface of natural rock formations. Its deep, organic relief creates dramatic shadow play under lighting, delivering a bold and sculptural architectural finish. Manufactured from flexible modified clay, the panel is lightweight, durable, and easy to install, even on curved or contoured surfaces.

Ideal for feature walls, reception counters, hotel lobbies, and commercial interiors, Moonscape 043 provides a contemporary stone aesthetic while maintaining the practicality of low maintenance and versatile application for interior spaces.

Product Size: 120 cm x 300 cm

# Milan Concave

---

Milan Concave is a sculptural wall panel defined by its smooth, curved surface and refined three-dimensional form. The concave profile introduces depth and rhythm, creating soft shadow transitions that enhance modern architectural spaces. Made from flexible modified clay material, the panel is lightweight, durable, and adaptable to curved or custom surfaces.

Ideal for feature walls, reception areas, retail spaces, and contemporary interiors, Milan Concave delivers a minimalist yet dynamic design with easy installation and low maintenance

Product Size: 120 cm x 300 cm

# Geometric Stone

---

Geometric Stone features a bold, structured pattern inspired by angular stone forms and modern geometry. Its three-dimensional relief creates a strong visual impact, adding texture and architectural character to walls and vertical surfaces. Crafted from flexible modified clay, the panel combines the natural look of stone with enhanced flexibility and lightweight performance.

Suitable for interior feature walls, commercial spaces, and accent areas, Geometric Stone offers a modern stone aesthetic with practical benefits such as easy installation, durability, and design versatility.

Product Size: 120 cm x 300 cm

<p>1. Product cutting</p>	<p>2. Glue the back of the product onto the wall</p>	<p>3. Fit with air nails</p>	<p>4. Measure the construction size with a ruler</p>
<p>5. Clean it with a dry cloth after paving</p>	<p>6. Take out the product accessories and caulk</p>	<p>7. Fill the internal corners with caulk</p>	<p>8. Fill the external corners with caulk</p>
<p>9. Use a scraper to smooth the caulk</p>	<p>10. Grind the edges and corner</p>	<p>11. Use a color modifier to repair the surface color</p>	<p>12. After it is completely dry, pull out the air nails</p>

# DEKOR STONE VENEER

## W A L L A R T & C O V E R I N G S

**Dekor Stone Veneer** is a real stone surface laminated with a high-strength polymer backing. The face of each stone sheet is split from natural slabs obtained from quarries. Every sheet carries its own beauty, with unique colors and a natural, cloth-like texture. Each piece is crafted with precision through a blend of state-of-the-art technology and meticulous handwork. All Dekor Stone Veneer products are made from natural stone formed millions of years ago.

### Dekor Stone Veneer Advantages

Easy to Handle

Flexible and Versatile

Easy to Cut

Strong and Durable

Environment Friendly

No Special Tools Needed

#### Specifications:

- 100% real stone surface
- Reinforced with Fiberglass Polyester Backing
- Ultra thin, each slate is only 3mm to 5mm thick
- Weights approx. 2kg/m<sup>2</sup>
- Available in 610mm x 1220mm - 1220mm x 2440mm
- More than 40 colors and designs to choose from

#### Where it can be used:

- Interior and exterior wall coverings\*
- Ceilings
- Furniture surfaces
- Bathrooms
- Kitchen cabinets and door skins

*\*Translucent Stone Veneer is recommended for indoor applications only.*

# DEKOR STUCCO

WALL-ART & COVERINGS

**Dekor Stucco by CSI**, is a polished Cement plaster finish for interior and exterior use. Based on Old World plaster formulations, it contains finely ground sand, lime, portland and/or White cement with polymers. These materials produce a durable finish with a decorative and natural appeal similar to cast concrete finishes and concrete plasters in Modern Industrial Finishes. Adding fade resistant pigments will create subtle mottled colors which can be used to replicate lime plasters used in Old World European homes.

**Dekor Stucco**, is a smooth and hard to the touch, yet has a gently ,mottled, soft visual sheen. Elegant and distinguished, Dekor Stucco creates the impression of an urban, concrete look used in modern lines.

**Product Name:** Dekor Stucco (Wall Art & Coverings)  
**Manufacturer:** Creative Solutions and Innovations (CSI) Phils, Inc.  
**Classification:** Non-Hazardous  
**Flash Point:** None  
**Fire Hazard:** None (Not Flammable)  
**Extinguishing Media:** Not Combustible  
**Appearance:** Grey or White Powder with Fine Aggregates  
**Odor:** No Distinct Odor  
**PH in Water:** 10 - 12  
**Stability:** Stable

**Incompatibility:** It is compatible with most materials. Product contains Portland / White Cement which is alkaline. It is then incompatible with acids and salts.

**Waste Disposal Method:** Can be treated as a common waste for disposal in accordance with local, state and federal regulations.

The Following properties are not applicable with this product: Vapor Density, Evaporation Rate, Boiling Point and Melting Point.
